

EPN status and new developments at the EPN CB

C. Bruyninx, G. Carpentier

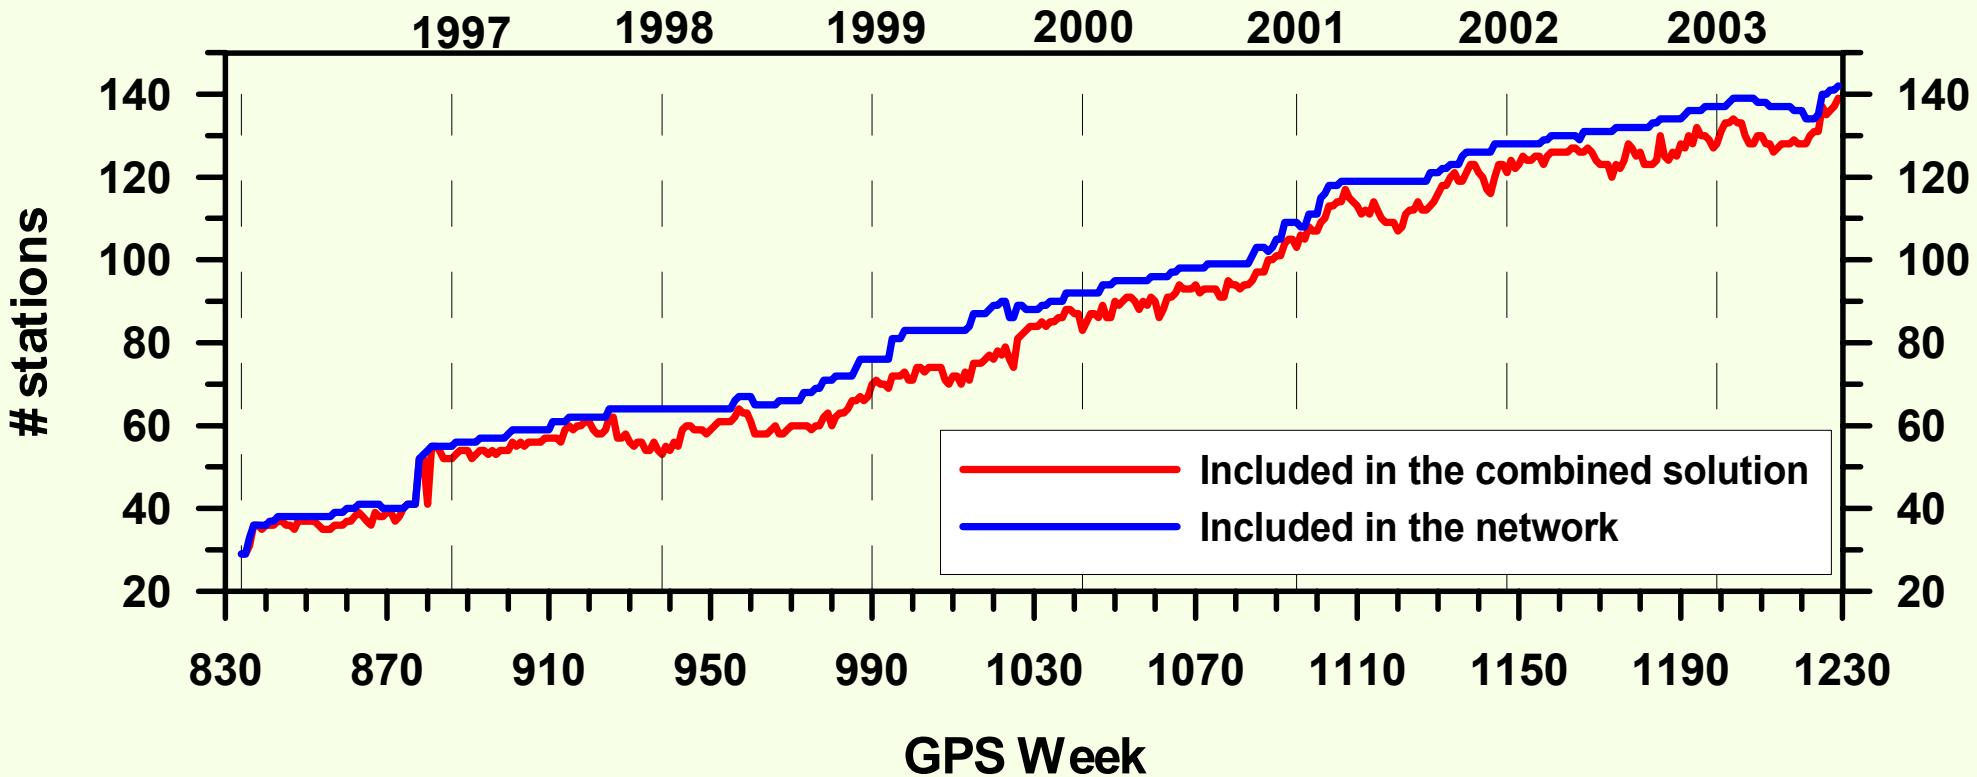

*EPN Central Bureau
Royal Observatory of Belgium*

GROWTH OF THE EPN TRACKING NETWORK

#34
6/AC

GROWTH OF THE EPN TRACKING NETWORK

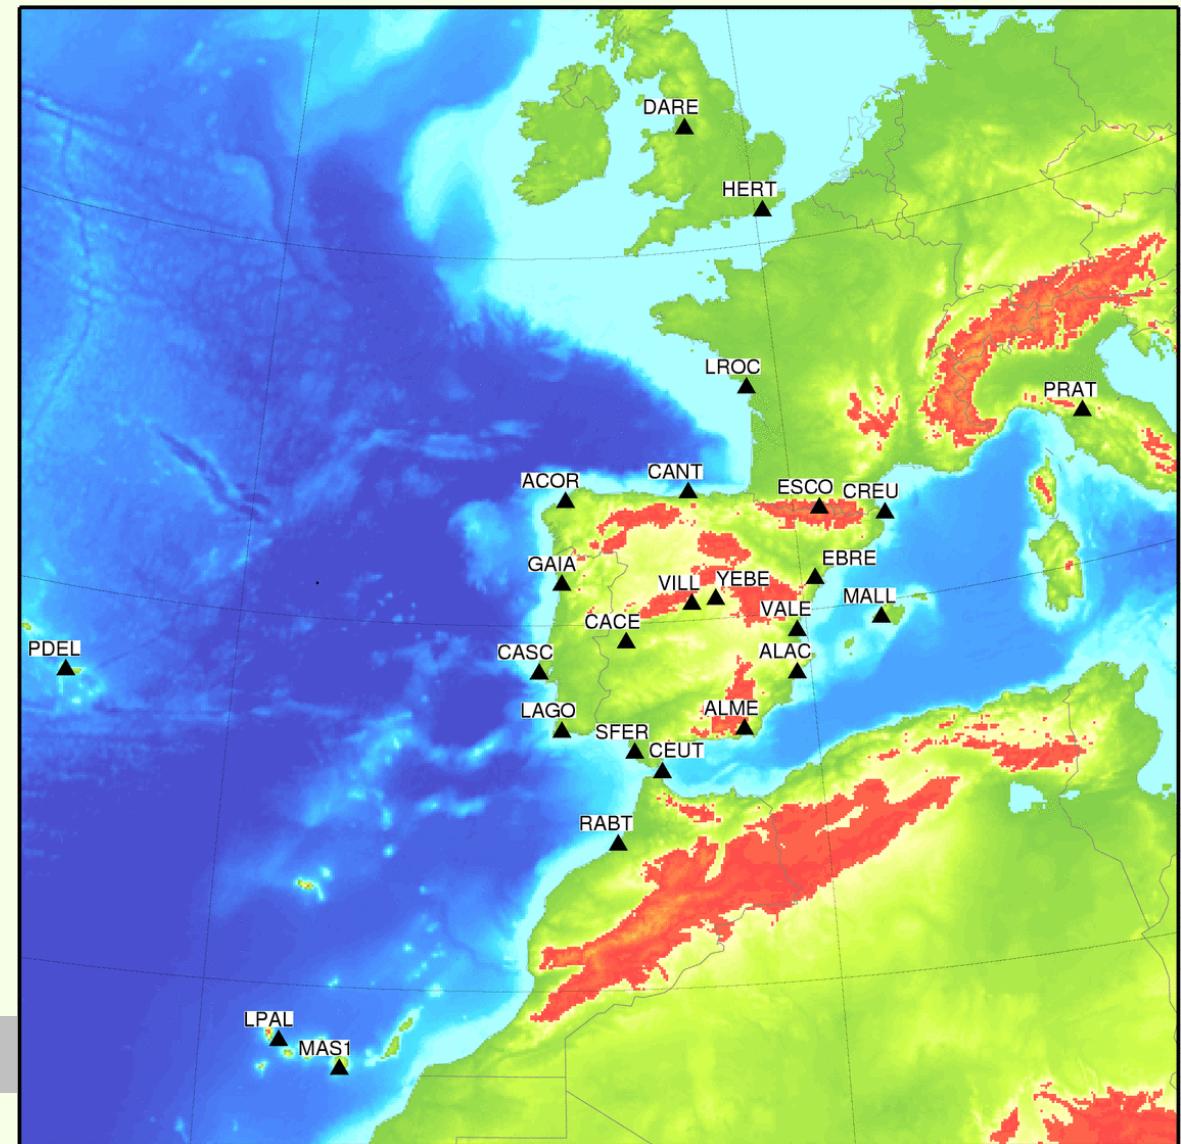

Presently 145 active stations and
7 inactive (AMMN, HFLK, IAVH, MDVO, SBZG and ZWEN)

National Geographic Institute Spain (IGE, Spain)

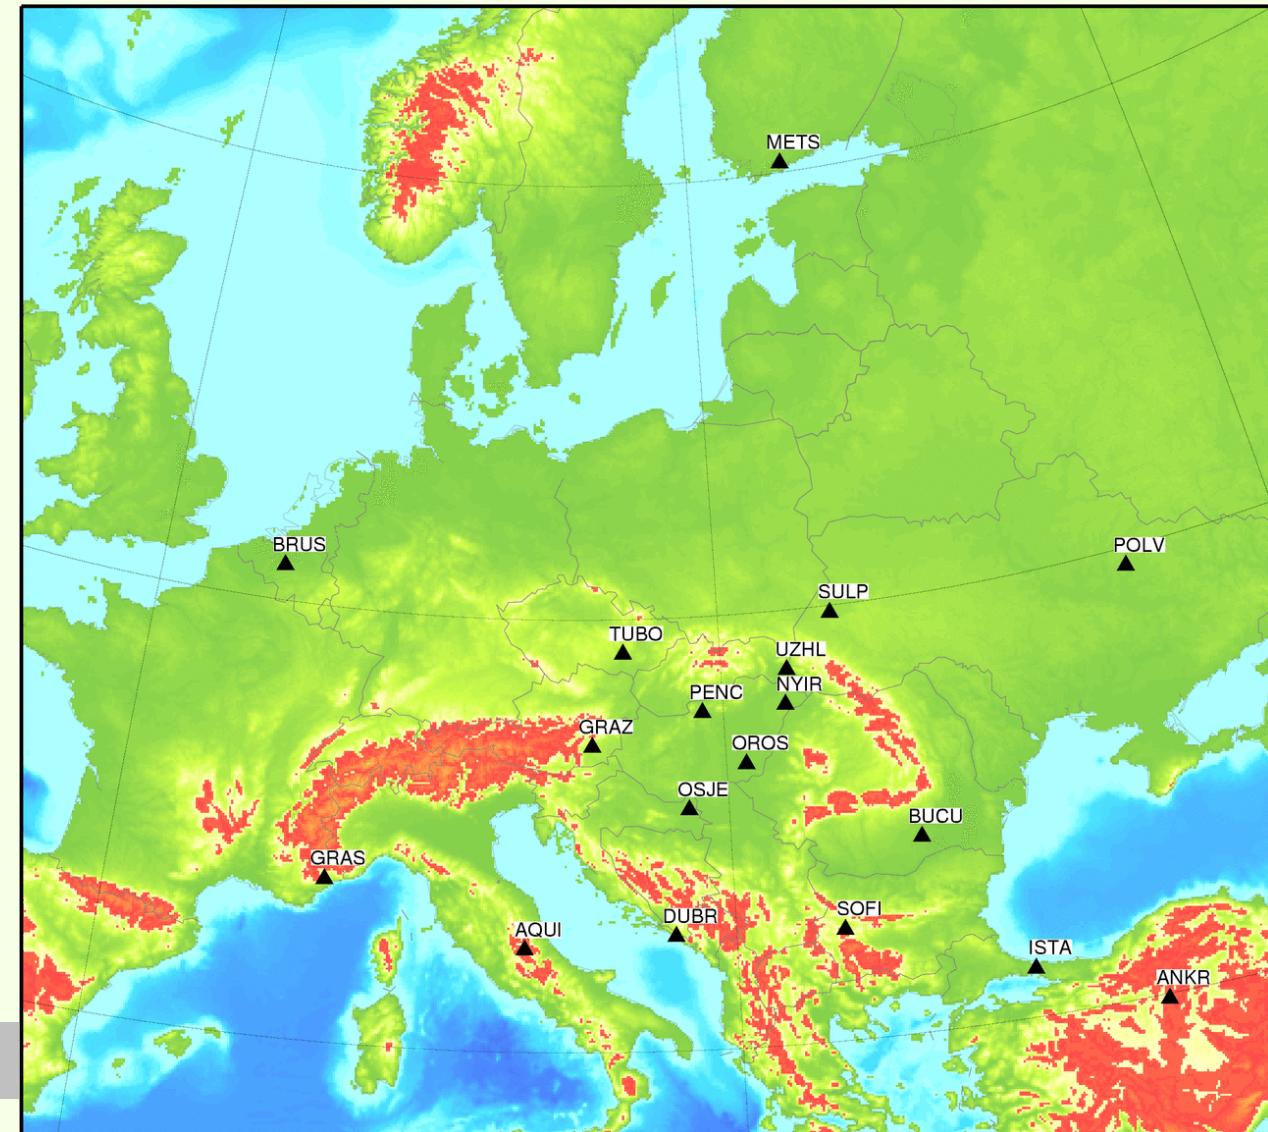

- ▶ Since September 2001
- ▶ Subnetwork of 24 stations
- ▶ Bernese 4.2

IGE SUBNETWORK

FOMI Satellite Geodetic Observatory (SGO, Hungary)

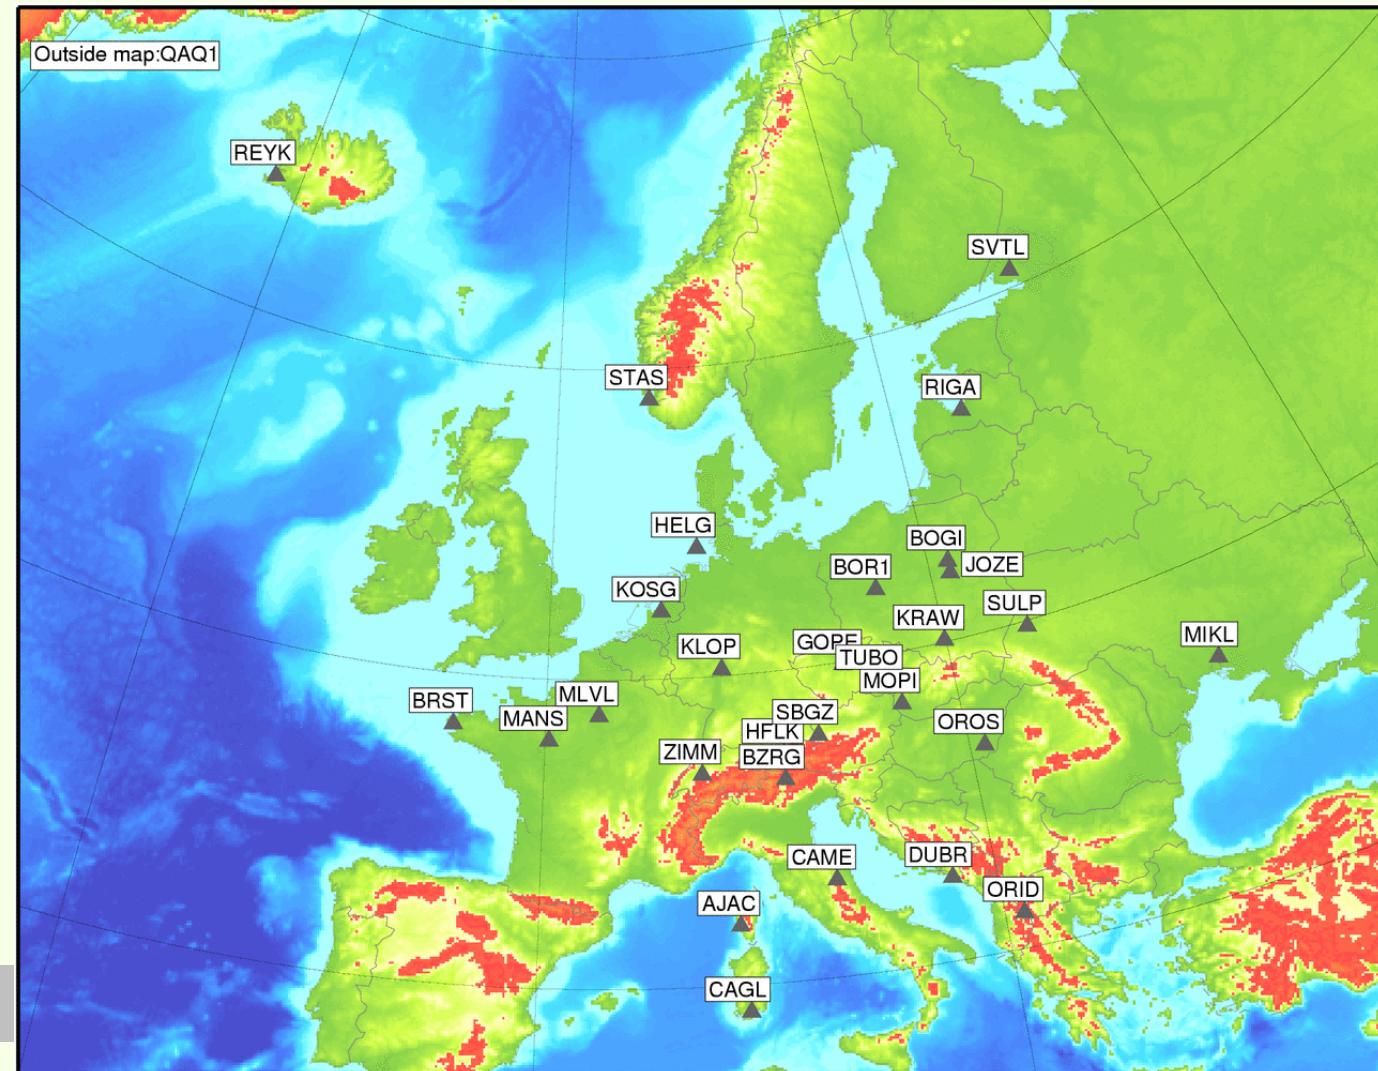

- ▶ Since December 2001
- ▶ Subnetwork of 17 stations
- ▶ Bernese 4.2

Slovac University of Technology (SUT, Slovakia)

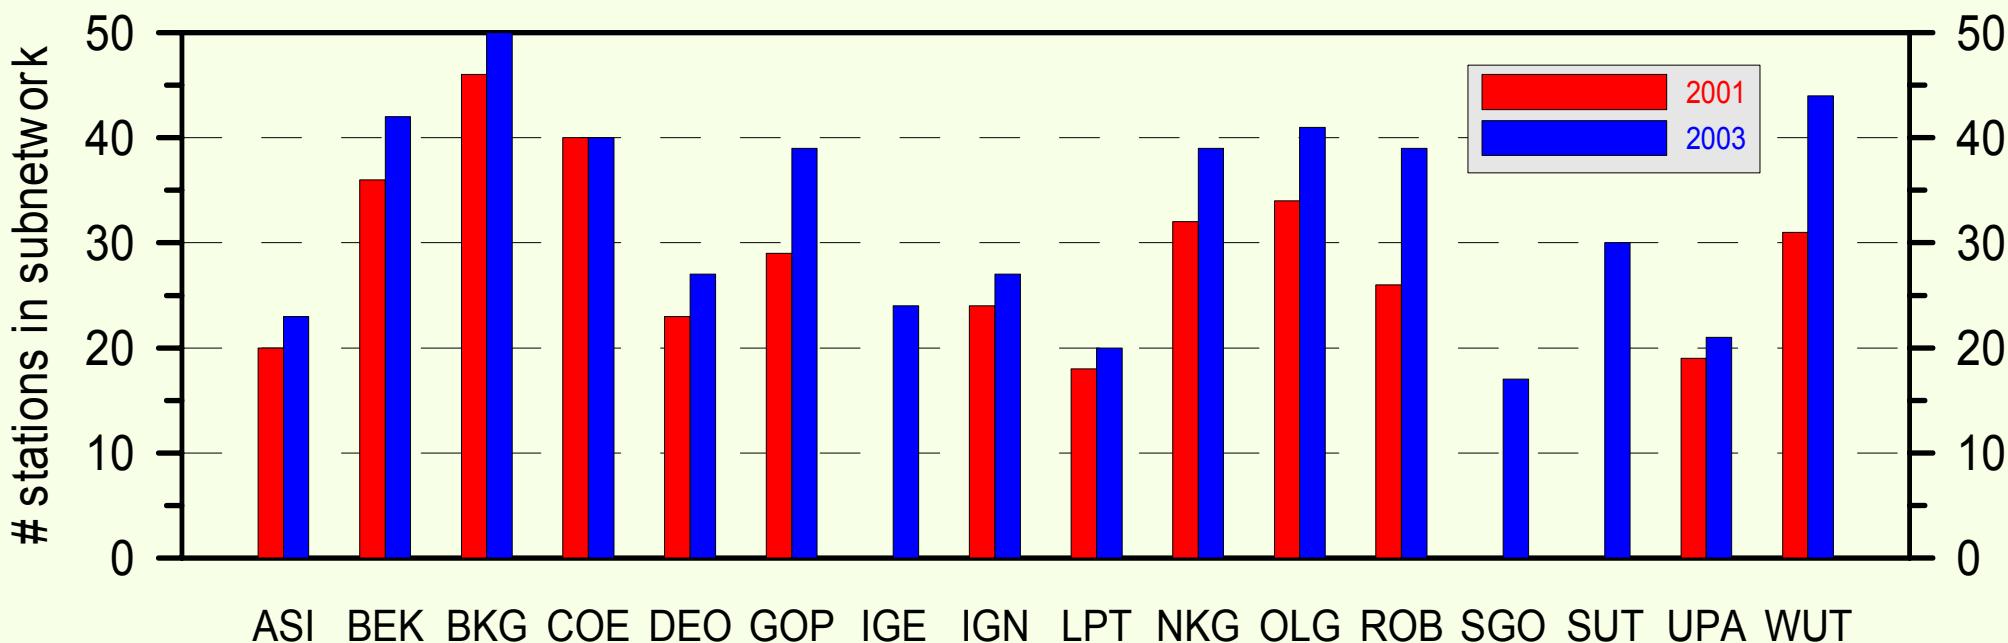

- ▶ Since September 2002
- ▶ Subnetwork of 30 stations
- ▶ Bernese 4.2

SUT SUBNETWORK

AGENCY	LOCATION	SOFTWARE	START OPERATION
Bayerische Akademie der Wissenschaften (BEK)	München, Germany	Bernese 4.2	October 1995
Bundesamt für Kartographie und Geodäsie (BKG)	Frankfurt, Germany	Bernese 4.3	December 1995
Warsaw University of Technology (WUT)	Warsaw, Poland	Bernese 4.2	January 1996
Royal Observatory of Belgium (ROB)	Brussels, Belgium	Bernese 4.2	January 1996
Observatory Lustbühel Graz (OLG)	Graz, Austria	Bernese 4.2	May 1996
Center for Orbit Determination in Europe (COE)	Berne, Switzerland	Bernese 5.0	June 1996
Italian Space Agency (ASI)	Matera, Italy	Microcosm 2001.0	July 1996
Bundesamt für Landestopographie (LPT)	Wabern, Switzerland	Bernese 4.2	November 1996
Nordic Geodetic Commission (NKG)	Onsala, Sweden	Bernese 4.2	December 1996
Geodetic Observatory Pecny (GOP)	Pecny, Czech Republic	Bernese 4.2	January 1997
Institut Géographique National (IGN)	Marne-la-Vallée, France	Bernese 4.2	November 1998
University of Padova (UPA)	Padova, Italy	Bernese 4.2	December 1998
Delft Institute for Earth-Oriented Space Research (DEO)	Delft, The Netherlands	GIPSY/OASIS II 2.5	March 2001
Instituto Geográfico Nacional de España (IGE)	Madrid, Spain	Bernese 4.2	September 2001
FOMI Satellite Geodetic Observatory (SGO)	Budapest, Hungary	Bernese 4.2	December 2001
Slovak University of Technology (SUT)	Bratislava, Slovakia	Bernese 4.2	September 2002

SIZE OF THE AC SUBNETWORKS

FUTURE NETWORK GROWTH

- EUREF-IP stations e.g. CAGZ, HERT, JOZ2
- ECGN : ± 20 stations
 - permanent GPS (EPN), repeated absolute gravity and repeated levelling
- Others, mainly nrt stations

EPN CB SUPPORT TO AC's - WEB

- Analysis Centres web page
<http://www.epncb.oma.be/analcent.html>
 - subnetwork, processing options (update!)
 - archive of all mails sent to euref_ac@ifag.de
- Station web pages
 - List of all [RINEX error inconsistencies](#)
 - [Teqc quality plots](#)
- Guidelines for ACs, including historical overview of processing options

EPN CB SUPPORT TO AC's – FTP/MAIL

Ftp : - Calibration values for antennae/standard names
- Ocean loading table
- Log files

Mail: - cc of RINEX error notifications to station managers
- new/inactive/former stations
 inactive (3 months not in combined solution) :
 stop submitting solutions and wait for EPN CB
 to declare station as active again
- cc of notification to station manager when data quality
 is out of normal (Teqc)

Software:

Easy tool to correct RINEX headers based on log file

RINEX HEADER INCONSISTENCIES

Legend:

No data available

No error

Small error (RINEX header error with negligible impact on data analysis : rec. firmware vers., rec. serial nbr. and ant. serial nbr.)

Major error (RINEX header error with impact on data analysis : marker name, marker number, rec. name, ant. name and N,E,U eccentricity.)

TLSE_10003M009 inconsistencies for 2002 (previous year)

Available
from station
web page

A few stations that had tracking problems as seen from the yearly TEQC plot

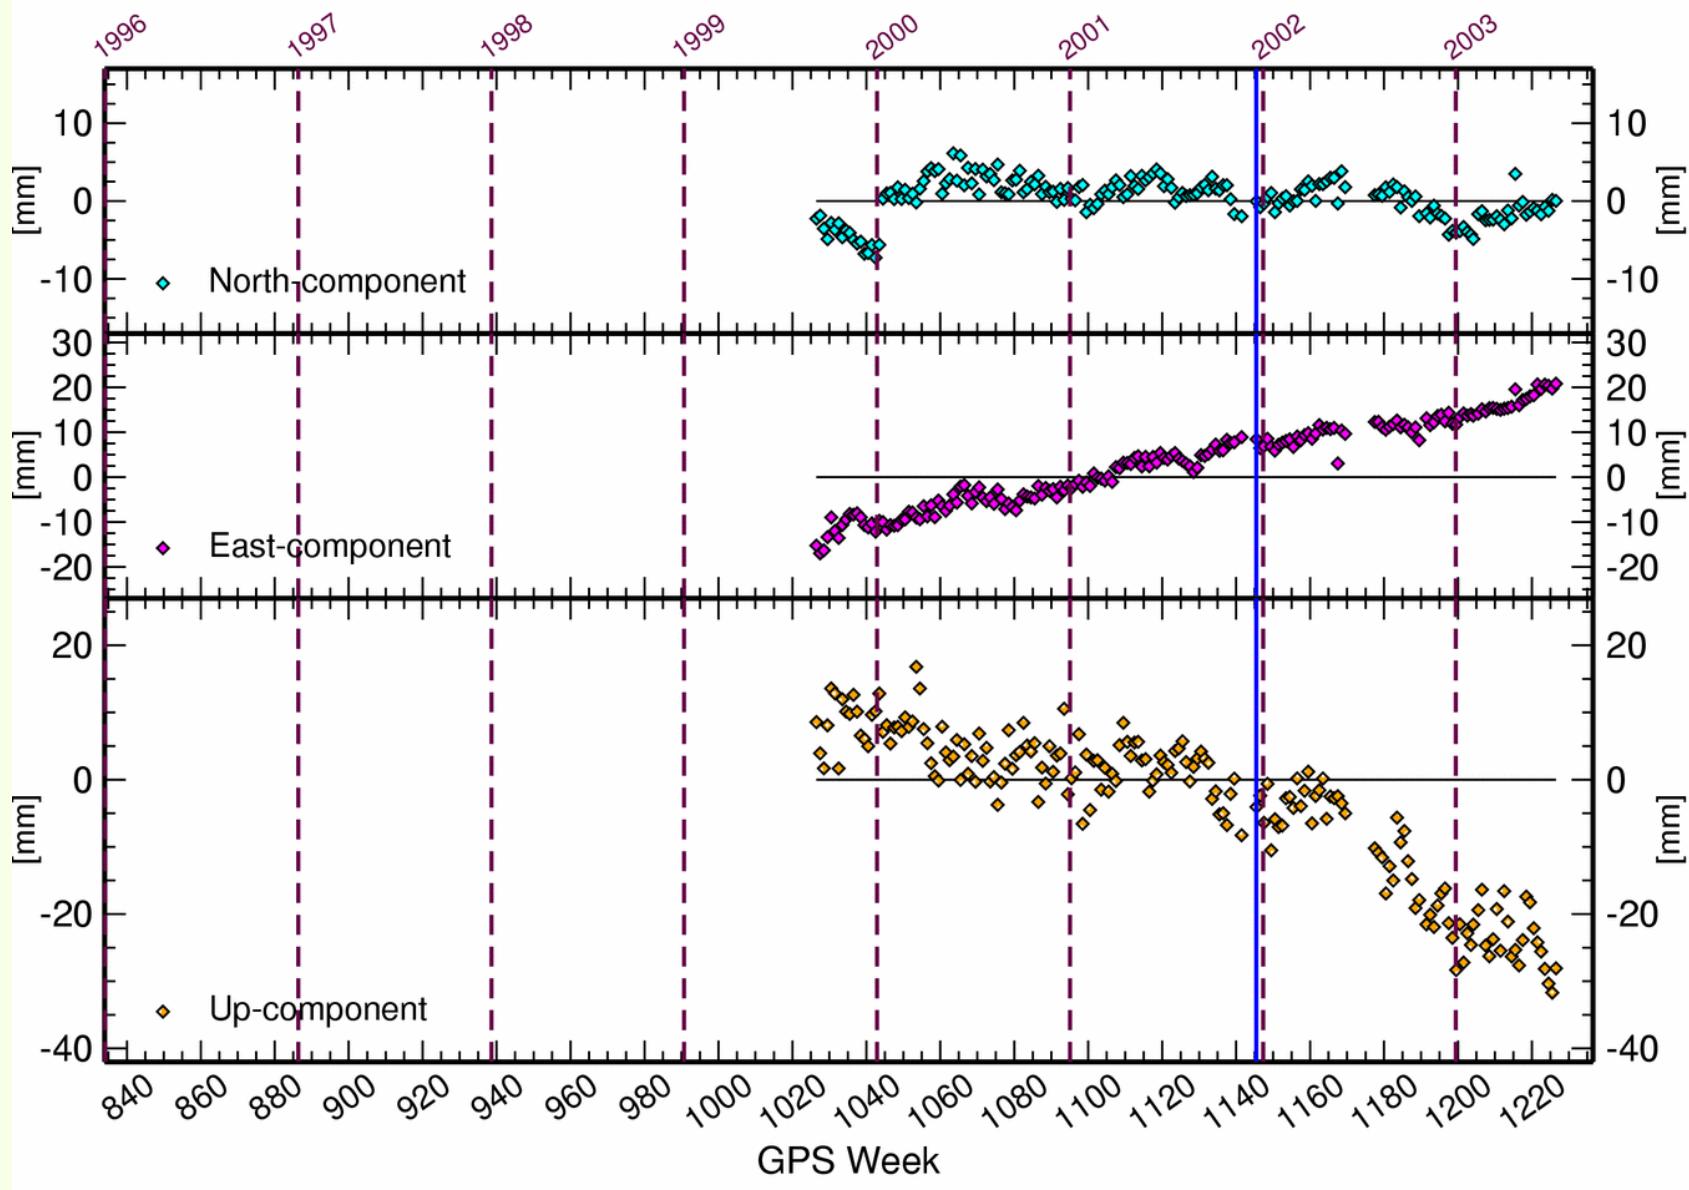

- ACOR
- BORK
- CANT

A Coruna, Spain: illegal radio frequencies? (EUREF mail 1366)

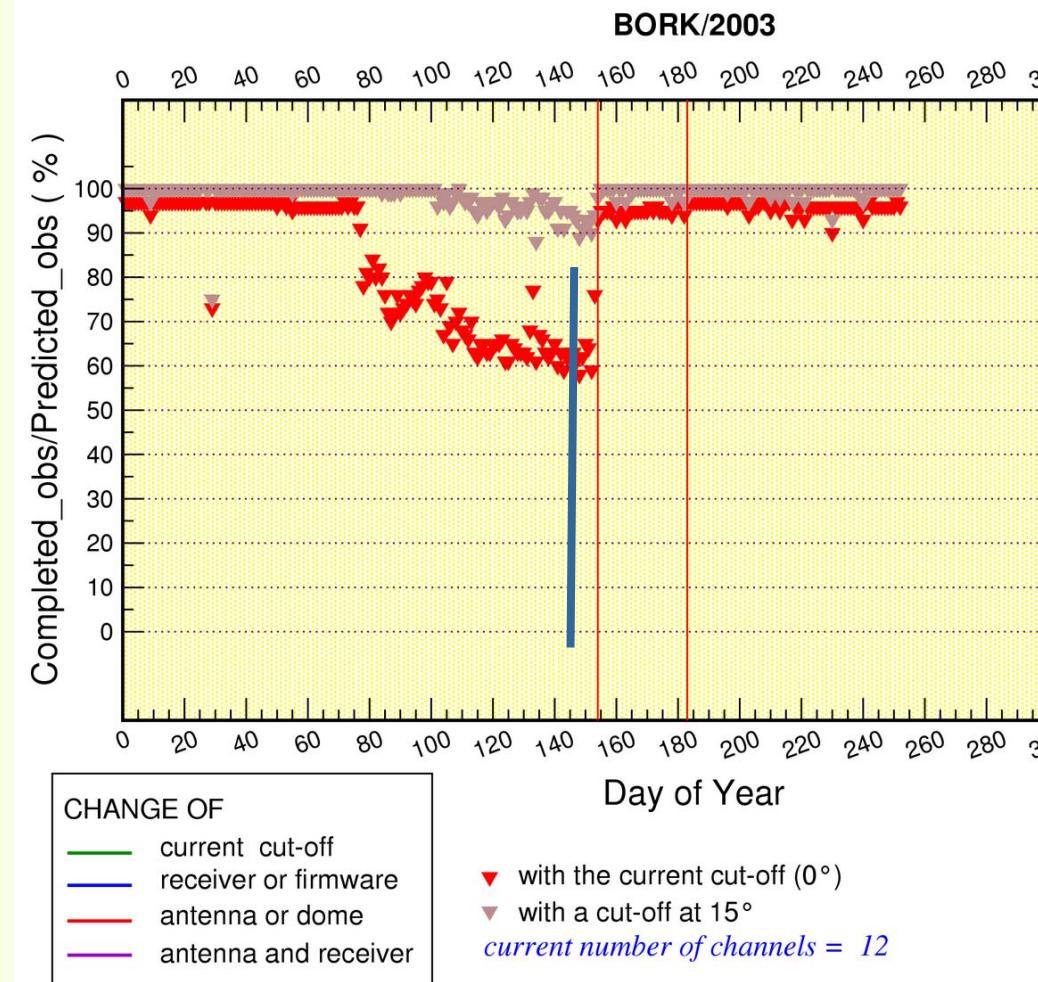

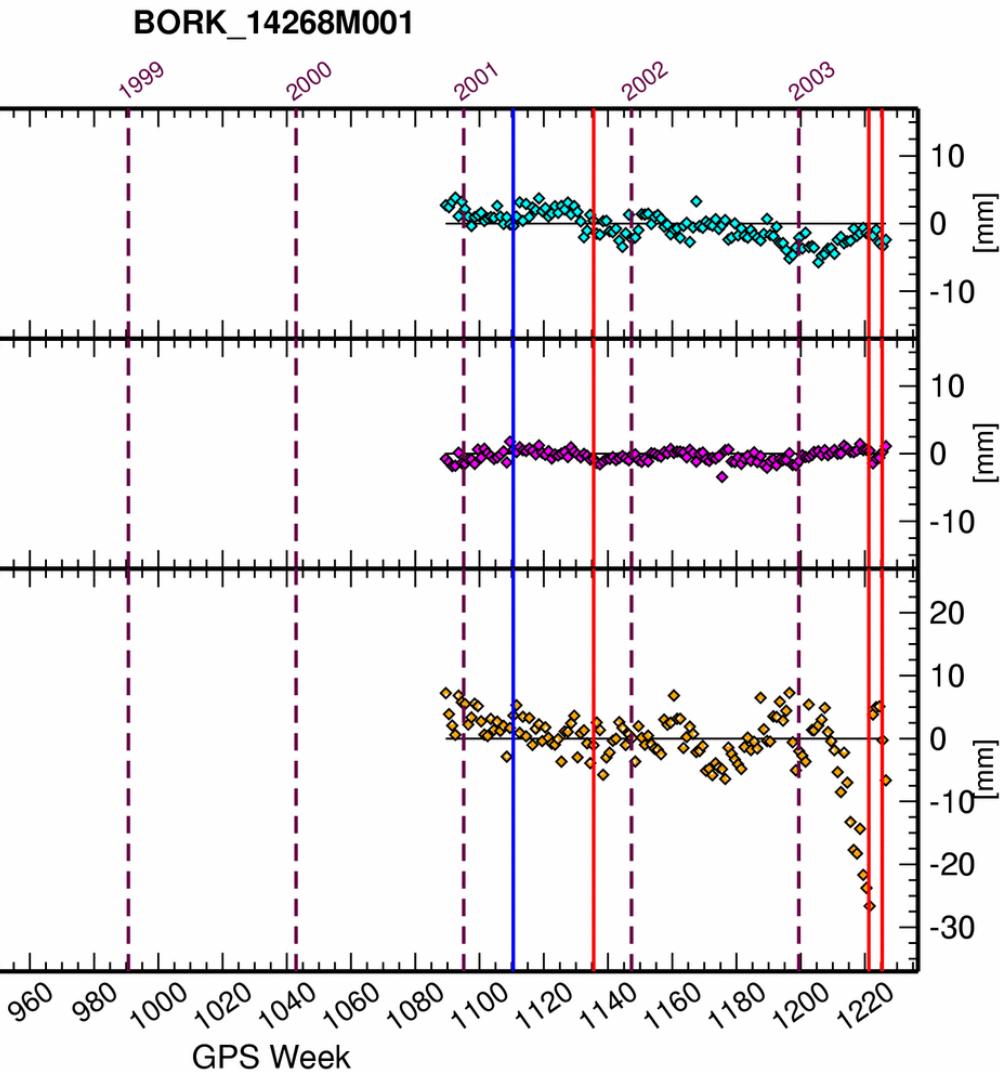

No observations below 18°!

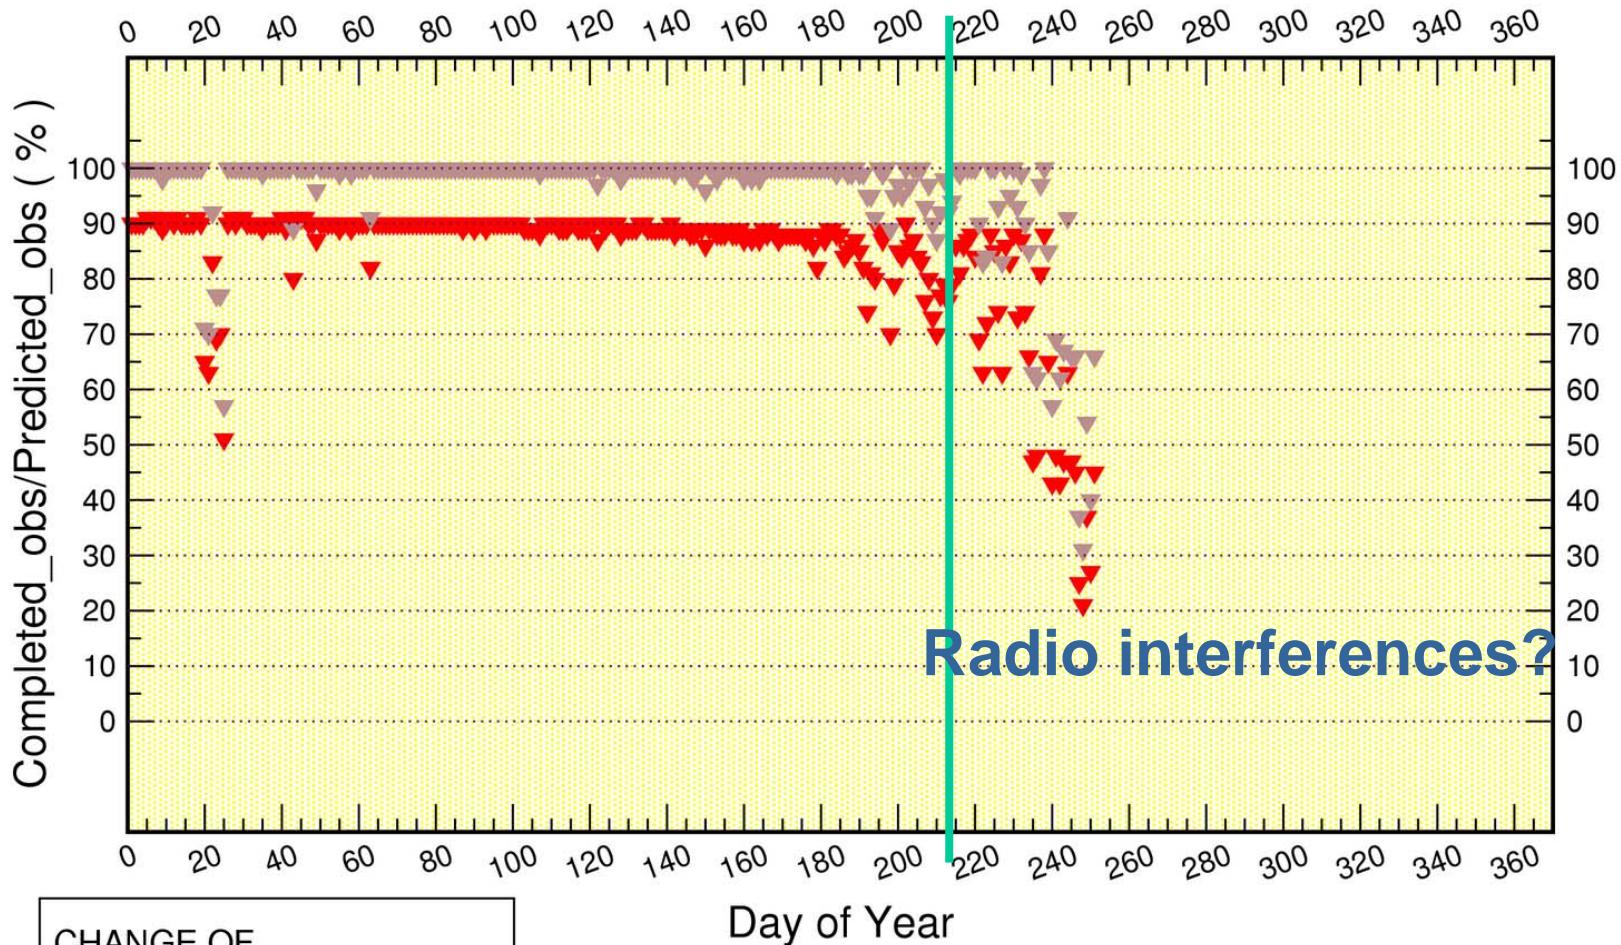

ACOR_13434M001

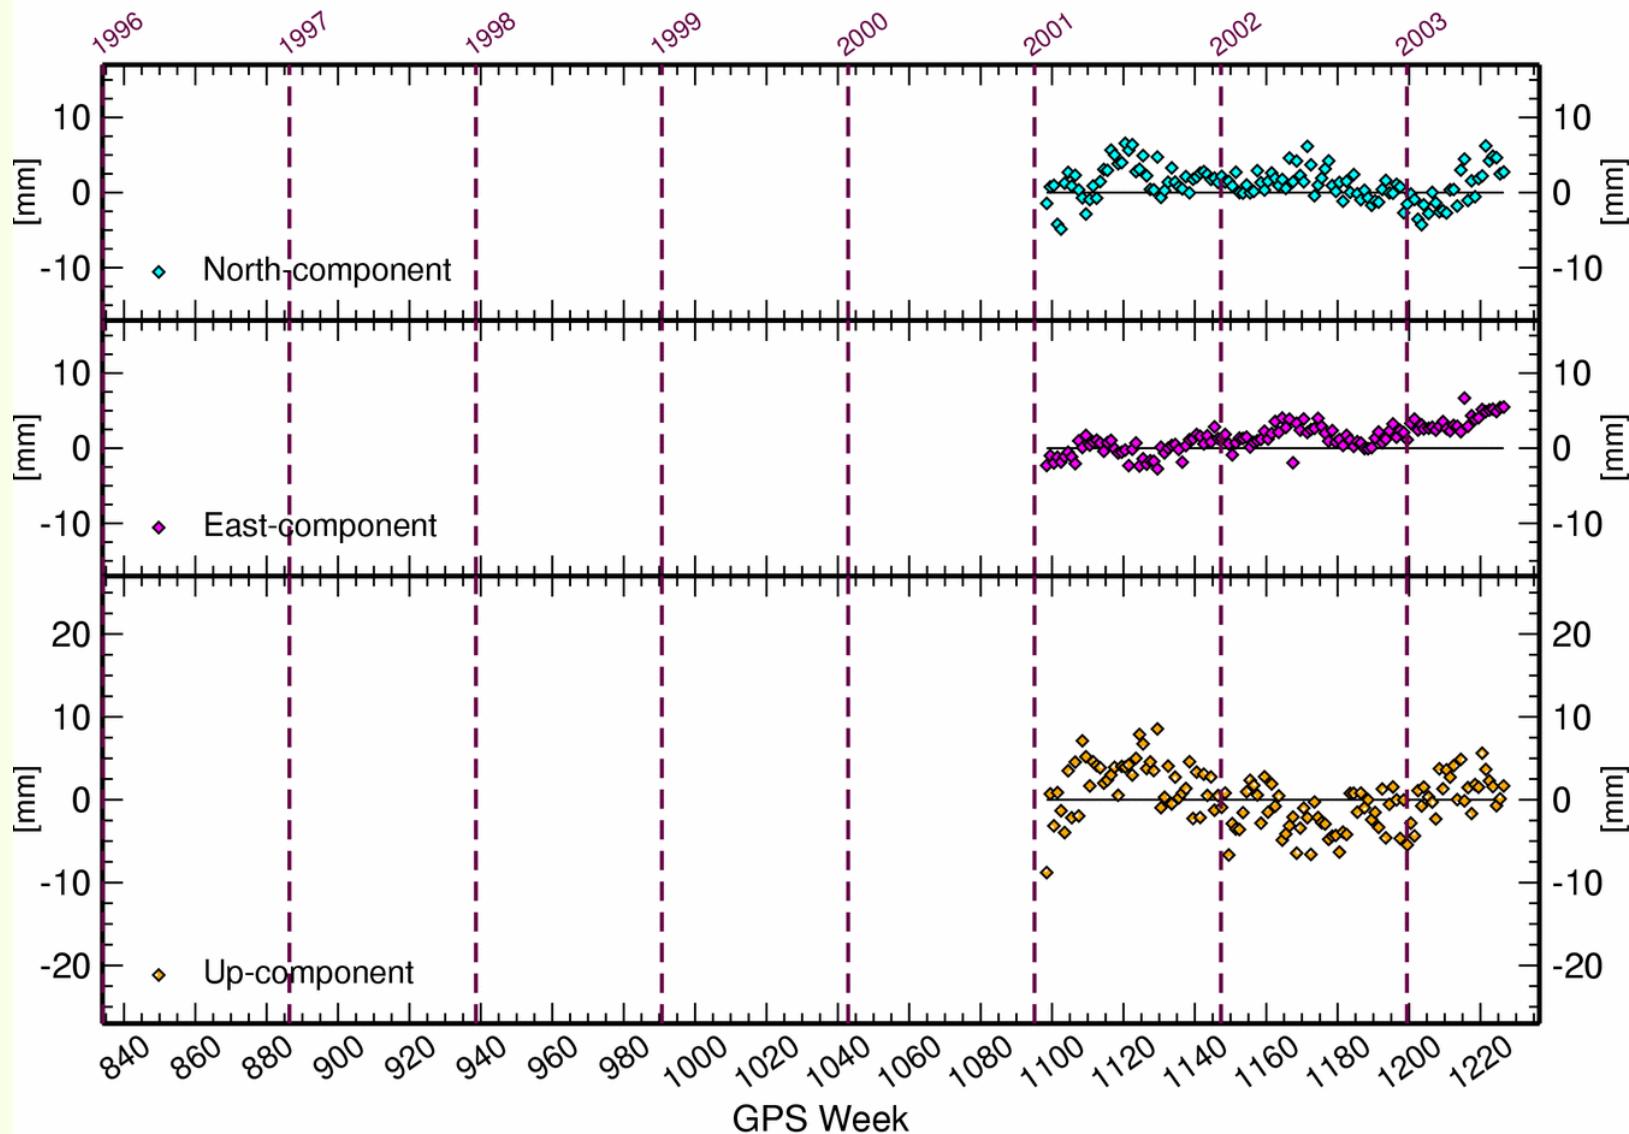

Borkum, Germany : degraded tracking from DOY 78/2003 (week 1210)

CANT/2003

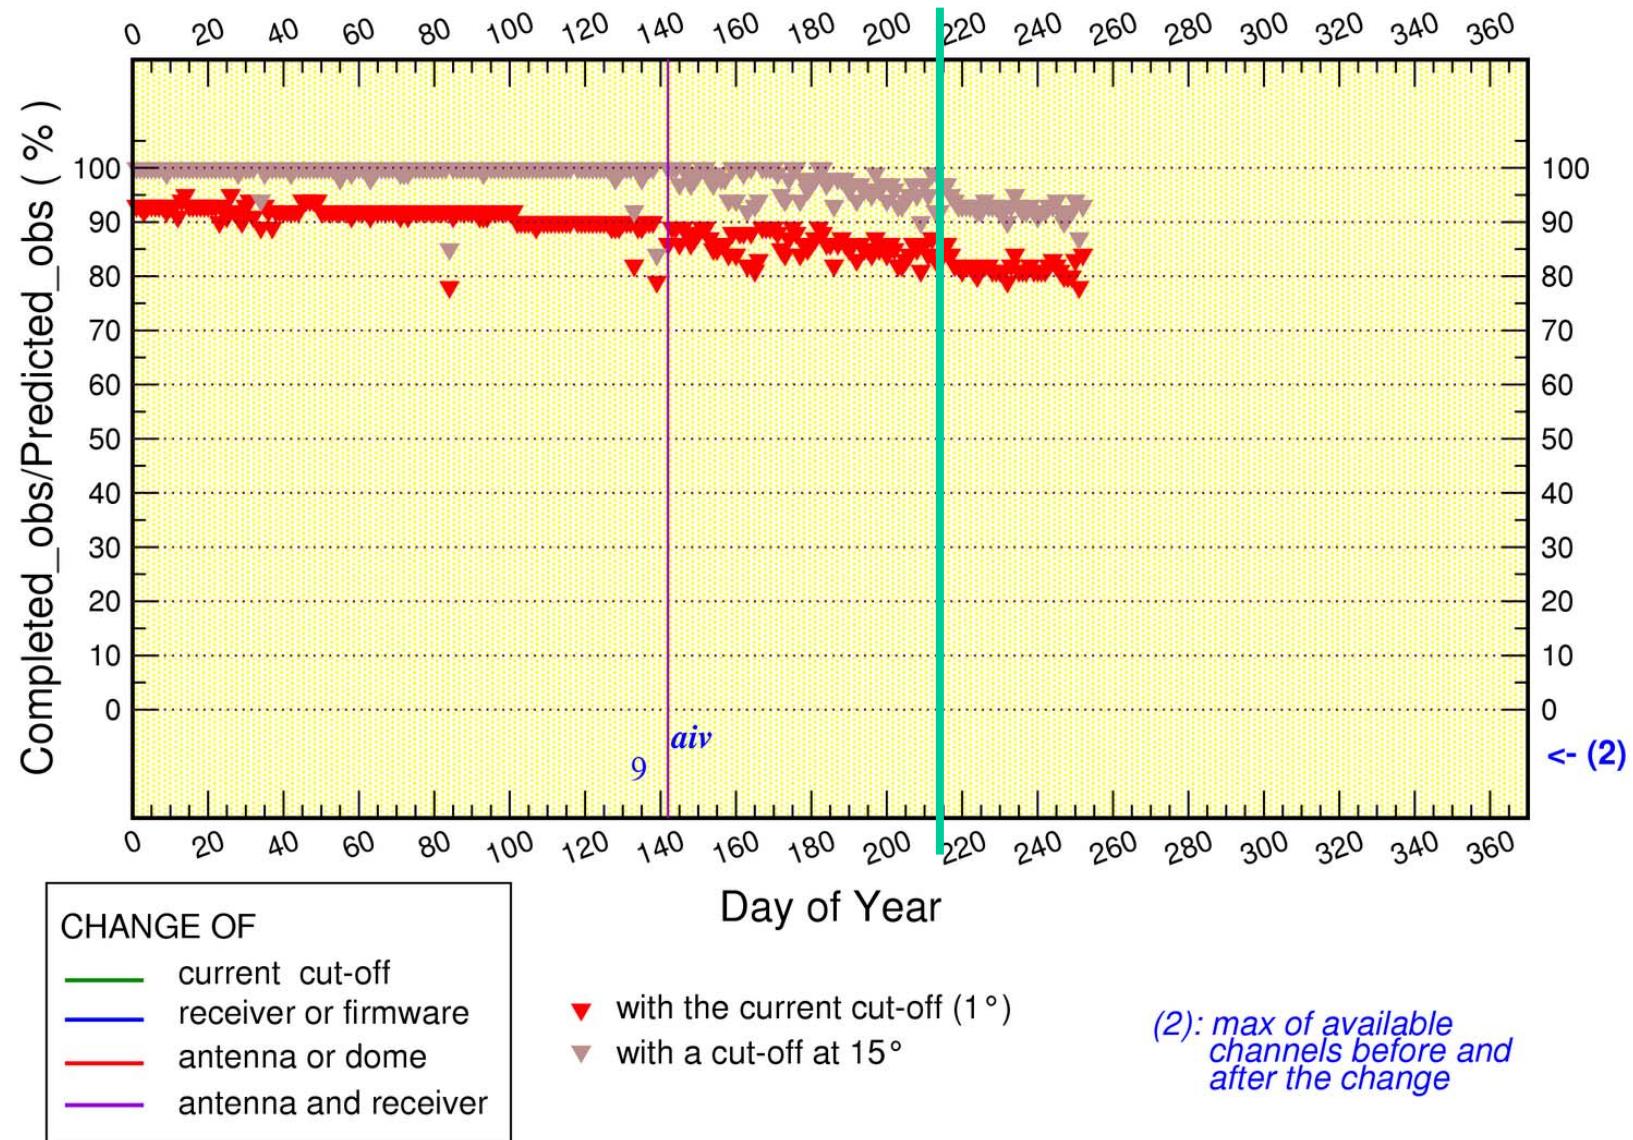

CANT_13438M001

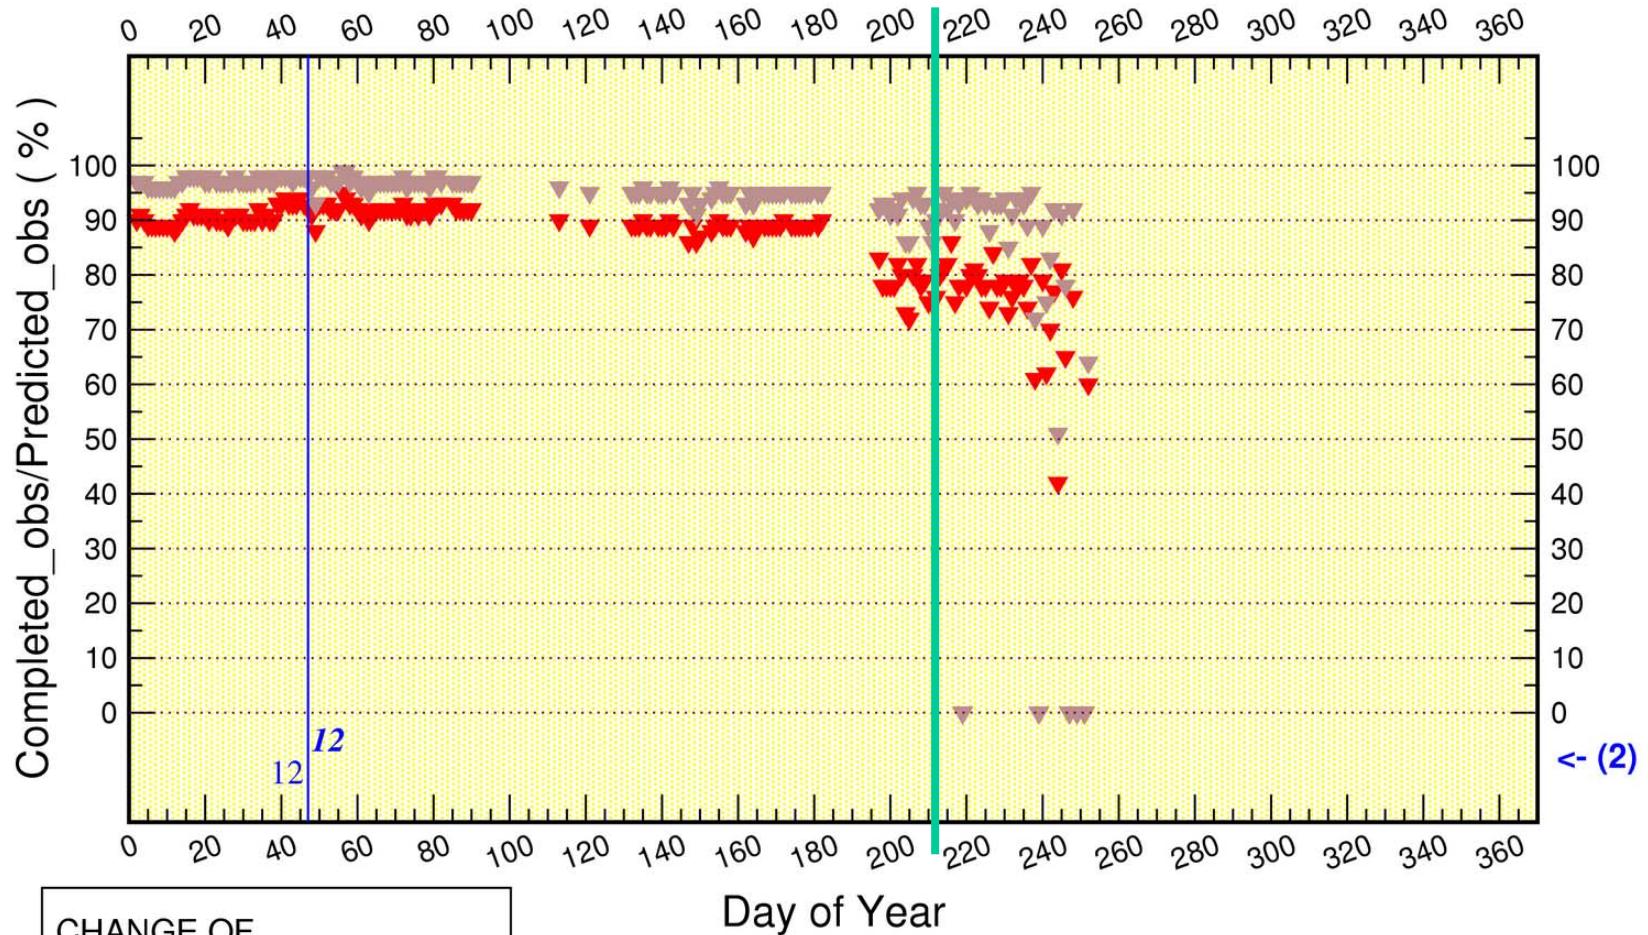

A few stations that need to be carefully monitored

- PENC
- RAMO

PENC/2003

RAMO/2003

(2): max of available channels before and after the change

Problems/Discussion:

- **Outlier in the week antenna change occurs (DENT)**
- **Need for occasional recomputation of combined solution?**
- **Speed up the availability of the EUREF Combined solutions**
